

We supply a number of products that can be used to remediate existing installations of septic tank systems, secondary treatment systems and percolation areas.

<ul style="list-style-type: none"> <li>▪ <b>PVC Distribution Boxes &amp; adjustable weirs</b> <ul style="list-style-type: none"> <li>– Control and adjust flows to percolation trenches and</li> <li>– Flows to any wet lines can be reduced by rotating the weirs</li> </ul> </li> </ul>	 <p>Distribution Box + adj. weirs</p>	 <p>4 hole (3 outlet) D-boxes with weirs, riser and lid</p>
<ul style="list-style-type: none"> <li>▪ <b>Effluent Filter Screens</b> –protect percolation areas from paper and sanitary products</li> <li>▪ <b>Pre-assembled filter screens in basins</b> plug-in after septic tank</li> </ul>	 <p>Filter screen in tank outlet</p>	 <p>Filter housed in plug-in basin</p>
<ul style="list-style-type: none"> <li>▪ <b>PVC Drop Boxes</b> <ul style="list-style-type: none"> <li>– used to overflow effluent to trenches at different elevations</li> <li>– effluent level rises and overflows from the first trench as it fills</li> </ul> </li> </ul>		
<ul style="list-style-type: none"> <li>▪ <b>Pre-Assembled Pump Basin</b> <ul style="list-style-type: none"> <li>– Accepts 110mm pipe at inlet via a watertight seal</li> <li>– Can be used to pump screened septic tank effluent to a nearby percolation area</li> </ul> </li> </ul>	 <p>Pipe ready pump basins</p>	 <p>top view</p>
<ul style="list-style-type: none"> <li>▪ <b>Flow Divider</b> <ul style="list-style-type: none"> <li>– Used to split effluent flows in two.</li> </ul> </li> <li>▪ <b>Flow Diverter</b> <ul style="list-style-type: none"> <li>– Manually alternates flows to two percolation areas (rest and recover)</li> </ul> </li> </ul>	 <p>Flow Divider</p>	 <p>Flow diverter</p>
<ul style="list-style-type: none"> <li>▪ <b>Sludge Judge Samplers</b> <ul style="list-style-type: none"> <li>– measures sludge in tanks</li> </ul> </li> <li>▪ <b>Easy Access Tank Risers, Lids &amp; Seals</b> <ul style="list-style-type: none"> <li>– Maintenance access without heavy lifting means it may be done!</li> <li>– All watertight prevents surface water infiltration</li> </ul> </li> </ul>	 <p>CorePRO® Sampler</p>	 <p>Rigid plastic risers are moulded into tank</p>
<p><b>Pressure systems</b> i.e. pump to polishing filters and Drip distribution systems require <b>Reduced areas</b> so can suit small areas on sites</p>
